BOTTLENOSE BREWING**

Wednesday is Ladies Night at Bottlenose!
1/2 off Wine and House Beer

Light appetizers provided!

Please email any questions to Katie katherine.ball@egs-us.com

Coming Soon...

ASCE Luncheon- The Definitive Solution to Communication Issues by Chuck Roberts

**When: Thursday, December 17th, 2019
11:30 AM to 1:00 PM**

**Where:
BBVA Bank
10060 Skinner Lake Dr
Jacksonville, FL 32246**

Your communication skills are likely to have more impact on your personal and

professional success than any other factor because this skill set influences your ability to convincingly present ideas, lead others, and achieve your desired outcomes and performance goals.

In this unique presentation you'll have the opportunity to witness a cutting-edge approach to communication that leverages scientific principles proven to improve listener and reader attention, receptivity, comprehension, alignment, unaided recall, motivation, and response while hearing how these techniques work. You'll leave with a new understanding of communication principles, and practical techniques you can immediately implement to improve your effectiveness and put you on the path to greater achievement.

You'll leave with a new understanding of communication principles, and practical techniques you can immediately implement to improve your effectiveness and put you on the path to greater achievement.

Volunteers Needed - Clay County Robotics League

Clay County has a Robotics League that does First Competitions and you could help these students learn and have fun in the process.
(<https://www.firstinspires.org/robotics/frc>).

They will be competing in an International Competition in March in Orlando. Click [THIS LINK](#) for more information!

This video also explains what they do.
https://www.youtube.com/watch?time_continue=4&v=wSA6lnzFAZE

If anyone involved in ASCE has experience in this and would like to volunteer to mentor email Leslee Bryan at Leslee.bryan@myoneclay.net.

ROBOTICS ON A DIFFERENT SCALE

ONECLAY A.R.M.O.R.Y. needs your help!

We are a FRC Robotics team for the Clay County School District, and we work primarily to bring STEM ideas to our local students and community.

We achieve this through community outreach events and participation in the FIRST Robotics competitions, which combine sport and science.

In order to keep running our team, however, we are in need of funds and non-monetary support. These funds go towards our robots, our events, and our students, providing the resources to build valuable STEM skills.

Through your sponsorship, you can receive good publicity, including your business's name or logo on our shirts, robot, and/or banner, depending on your sponsorship bracket. along with the personal thanks of the ONECLAY A.R.M.O.R.Y students and mentors.

Thank you for support, and as our team motto says - we will work hard to make our reality yours!

ASCE SE Student Conference Sponsorship

When: March 12-14 2020
Where: UCF

The American Society of Civil Engineers at the University of Central Florida is excited to host the 2020 ASCE Southeast Student Conference, March 12-14, 2020.

This 3-day conference draws more than 900 students from 28 Universities in the southeast region of the US and Puerto Rico.

This event is challenging and expensive to host but your financial support and participation will help this a once in a lifetime experience.

Click [THIS LINK](#) for more information.

Please contact us at ascasesc2020@gmail.com if you are interested or have any questions! - Madeline Batey

Call for Speakers and Member Spotlights

ASCE is looking to our members for potential speakers for our Spring luncheons (beginning August). Additionally, are you, or know someone, who is ASCE's #1 fan? Nominate them for a **member spotlight** where they'll receive special recognition and a free meal at our next luncheon.

Please email Danielle DeMeza at danielle.demeza@egs-us.com
