E-Week Recap

This year's Engineers Week was held February 14 - 22, and ASCE Jacksonville Branch enjoyed another successful year of events. One of our favorite moments was recognizing our Annual UNF Scholarship Recipients: **Nicole Miller, Caryle Capuyan, and Nicholas Perez.**

All are ASCE Student Members who demonstrated outstanding achievements among a highly competitive pool of applicants. The awards were presented at the Northeast Florida Engineers' Week Scholarship Luncheon (hosted by ASCE) along

with many other awards from various engineering organizations. Congratulations to our scholarship winners!

Feeding Northeast Florida Virtual Outreach Event:

One of our Branch's ongoing initiatives is to engage with the community through quarterly outreach events. Feeding Northeast Florida (FNEFL) is an organization we have partnered with in the past, and they are currently responding to a dwindling food supply chain as a result of the COVID-19 pandemic. Since we can't be physically present for our community right now, we are

asking all ASCE Jacksonville Branch members to show your support by means of a monetary donation.

Donate through ASCE Jax Branch and you will be entered in a random drawing to receive a FREE PDH LUNCHEON ATTENDANCE FOR YOU AND A COLLEAGUE! The amount you donate will NOT affect your chance to win. The winner will be announced on May 29, 2020. All of the funds raised will be sent to FNEFL through their virtual donation drive.

\$40.00 helps provide 10 Snack Packs to children in need.
\$100.00 helps provide 4 Family Boxes to families in need.
\$250.00 helps provide 10 Family Boxes to families in need.
Any amount makes a difference!

If you prefer to abstain from the prize drawing and donate directly to FNEFL, or if you would like to read more about their response to COVID-19 and how you can help, please visit their website. <https://www.feedingnefl.org/covid-19-updates/>

COVID-19 Resources Page and Kids STEM Activities:

Did you know that ASCE launched a [COVID-19 resources page](#)? It includes online tools and tips, including links to topical online discussions with fellow members.

Our personal favorites are the [STEM@Home activities](#) to keep the kids entertained and engaged in STEM while at home. We just added a 3rd how-to video to the series: [Build an Earthquake Resistant Structure](#)

ASCE is adapting activities from the award-winning documentary, Dream Big: Engineering Our World and working with [DiscoverE](#) to build a library of materials for parents and teachers to use. More activities are being added each week!

Free PDHs:

One of the many benefits of being an ASCE member is access to [10 FREE online webinars](#) - that's up to 15 FREE PDHs! So, you can still get ahead on those hours even while our monthly luncheons are on hold. If you have any questions about the Jax Branch operations during this time, please send us an email. We look forward to seeing our members again soon!

ASCE Jacksonville Branch Board of Directors

President	Danielle DeMeza, P.E., A.M.ASCE
Vice President	Jennifer Kennedy, P.E., PTOE, GISP, M.ASCE
Treasurer	Nicole Bohaczyk, E.I. A.M.ASCE
Secretary	Edgar Garcia, E.I. Aff.M.ASCE
